Arts Team @ RHWL

**CMS Duties:**  
Project Managers

**Procurement:**  
Traditional

**Funding:**  
Arts Council England  
SEEDA/ SRB  
Brighton & Hove  
Council Sponsorships

The requirements for major structural engineering works, including the creation of a new basement area under the auditorium to provide a flat floor, within a grade 1 listed nationally important venue and providing state of the art technical installations with delicate restoration works asked the most challenging questions. This was resolved with day to day programming and management controls.
